

PHIL HEWITT ASSOCIATES LTD

Basement Waterproofing Courses

In November 2008 a three day course in structural waterproofing will be held at the premises of Safeguard Europe in Horsham.

This course follows the CSSW syllabus and the content will be as follows:

Day 1 - Basic Principles of Structural Waterproofing

BS 8102. BCA/BSWA Design Guide. Other documents. Design Philosophy. High water tables. Salt contamination. Induced stresses. Types of systems. Selecting systems. Combining systems. Conforming to BS 8102.

Day 2 - Surveying, Reporting and Quoting & Contract Law

Assessing ground conditions and structure. Preparing a report. Quoting and basic contract law.

Day 3 - Principles and Application of Cementitious and Cavity Drain Systems

General principles of cementitious systems - sand/cement mixes, hydration, curing, shrinkage, bonding, wall/floor junctions. Cavity drains - fixing, lapping, sumps & pumps, wall/floor junctions. General points for both systems - fixings, decoration.

Course Dates

Day 1 – 11 November 2008 Day 2 – 12 November 2008
Day 3 – 13 November 2008

Cost

£150.00 + VAT per day, or £400.00 + VAT for all three.

Booking

Complete the enclosed form and return it to Phil Hewitt Associates Ltd
